invisalign

The invisible way to straighten your teeth without braces. It uses a series of clear removable aligners to straighten your teeth without metal wires or brackets. No one be able to tell you are straightening your teeth, and you will be able to eat and drink what ever you want while in treatment.

Dental Extreme Makeover

Extrem Makeover usually has a reconstructive focus and involves any number of dental cosmetic and restorative procedures. This is the creative and artistic application of those procedures that differentiate extreme makeover dentistry from the broader term of Cosmetic Dentistry in Bangkok.

Dental crown

"Dental crown is best utilized as a way to improve the cosmetic appearance of a tooth when the crown simultaneously serves other purposes also, such as restoring a tooth to its original shape or strengthening a tooth for dental crown in Bangkok. There are basically two types of dental crown, those all porcelain/ceramic (metal free) crown and porcelain fused to metal crown."

Lumineers

Proudly presenting LUMINEERS/USA. Silom Smile Dental Clinic Bangkok is the first and only one official center in South East Asia for the contact-lens-thin porcelain technology. We can apply these contact lens-thin "smile shapers" to teeth without any grinding or shaving, transforming teeth into a naturally beautiful smile that looks perfect for every individual.
